

Malvern High School  
Graduating Class of  
1966

40th Class Reunion

# MALVERN HIGH SCHOOL 1966

Here she is....good ol' Malvern High School. She served most of us well and left us with many fond memories. Of course, some of the memories are more poignant than others, but on the whole, high school was a good experience. Times were so much simpler, although we didn't realize it at the time. So..... "Hats off to you," Malvern High.

LETTER FROM THE EDITOR.

*Compiling this book has been a wonderful experience for me. First, let me thank all of our classmates who have contributed to this collection of our graduating class. It has been so much fun emailing and talking on the phone with you over the past two months.*

*As I traveled back in time through all of my annuals, memories flooded my mind. At times it even seemed as if I could smell the old school, with its oil soaked floors and years and years of Malvern students passing through and leaving a bit of themselves on the way. My mother went to the first grade there on the lower floor. Remember how the water fountains were built low? My most frequent reoccurring dream is of rushing to class on the third floor, but not knowing which is my classroom. I have to go to the office to get my schedule over and over and over...AND to get my locker combination as well. Sound familiar?*

*But I think my biggest surprise was reading the notes written from all of you. I was amazed at how kind and thoughtful your words were...even the boys! There were lots of "God bless", "you have helped me through this year", or from Diane Hudgens Lowry, "When we're sitting and reading this to our children...". I was doing just that at that moment. I was reading to my daughter, Ali.. What a sensation that was.*

*How many remember the night we turned off the lights on the football field so we could run the players on with our newly made torches? I had asked permission from Coach Hunt and/or Mr. Fincher and had gotten a resounding "NO." I just couldn't understand why turning off the lights was such a problem. So, we decided to do it anyway. On the given signal from me, a person who shall remain unnamed, flipped the switch. Yes it was a grand entrance for the team, but oh my goodness, when I think of how many people could have been hurt who were walking around in the stands or coming down the stairs. Years later, I asked Bill Hunt if he remembered that incident. He looked at me, kind of smiled with stern eyes and said very slowly, "Yes -I -do." I changed the subject.*

*I want all of you to know that I cherish my time with all of you.. I only wish I would have known to be more aware and more appreciative of the friendships at the time. We were all gliding through a wonderful moment in time when life was simple; songs had tunes and nice words, smoking anything was not cool, kissing was a big deal, there were no logos on cloths, and money wasn't that important.*

*This booklet was a labor of love. Take a look and remember old times and old friends. Put it on your shelf and maybe in 20 years your children and grandchildren will want to know how it was in the "good ol' days". They will think we looked funny and maybe we did. Big hair and white socks have not made a comeback,*

*I send all my best to you and hope that we can meet again sooner than later. Let's keep in touch.*

*Fondly, Jane Dial Whaley*

# Our Own Mrs. Starks

. but one stands out

rs. James Starks

This year, we of the yearbook staff would like to dedicate the 1966 Mirror to a person whom we feel truly deserves this honor. Because of her confidence and enthusiasm, Malvern High School students have been encouraged in both learning and school spirit. Not only has she given of her time, but she has given of herself. As a vote of confidence, we would like to dedicate the 1966 Mirror to Mrs. James Starks.

# CLASS OFFICERS

Class Motto:  
What we are to be  
We are now becoming  
Class Song:  
Theme from "Exodus"  
Class Colors:  
Maroon and white  
Class Flower:  
White rose

## SENIOR SPONSORS

Miss Jeanne  
Speakman

Mr. Joe  
Howerton

## *In Memoriam*

*Donnie Inglis*

*Frances Bass*

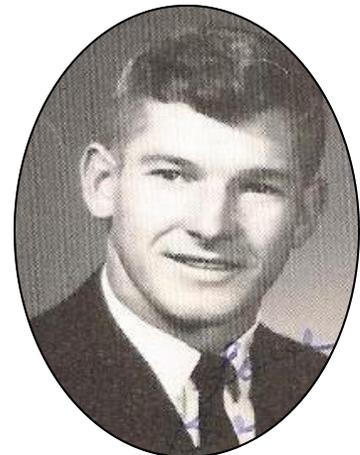

*You were with us for a time  
When we were young and free.  
We spent our days in carefree ways  
There's always you and me.  
Our laughter filled the sacred halls  
Of good old Malvern High.  
Our sights were set, our hearts were strong  
We were reaching for the sky.  
But then an angel came  
And took you from our midst.  
We love you still, and always will  
God, let us not forget.*

Here's to the Leopards!

Yummy

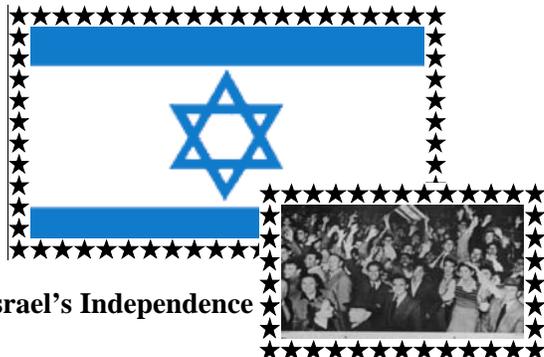

Yummier

Rick James

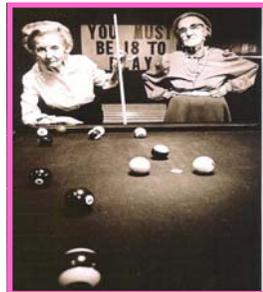

This is actually Mike Samons and Harold Lock at their 3rd birthday.

Israel's Independence

# THEN AND NOW

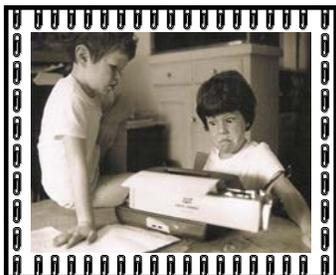

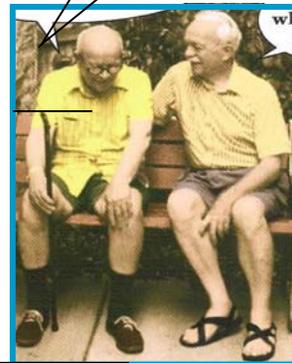

"Rack 'em up Kay."

Who's got the last laugh now?

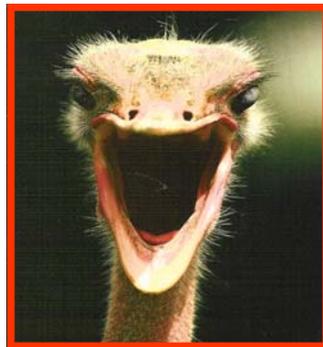

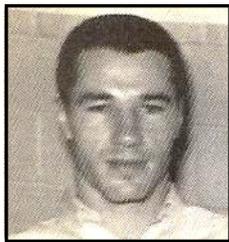

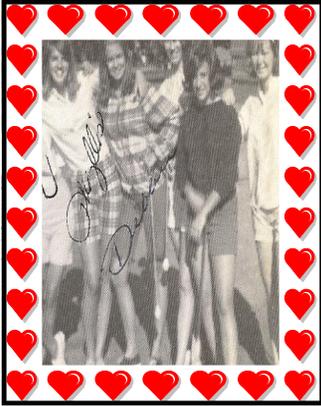

Because Haltom, I just married a cute new wife, and I can't remember where I live.

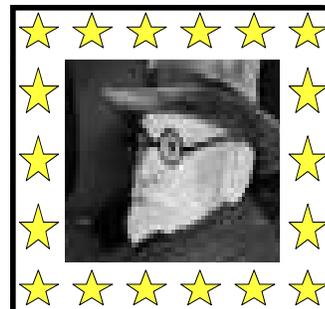

You mean this thing doesn't have spell check!?

# THEN AND NOW

"I MEANT IT THEN,  
AND I MEAN IT NOW."

# THIS IS A TEST...

1.

Who sent in this photo?

(Here's a hint....  
Here he is as a young child.)

2.

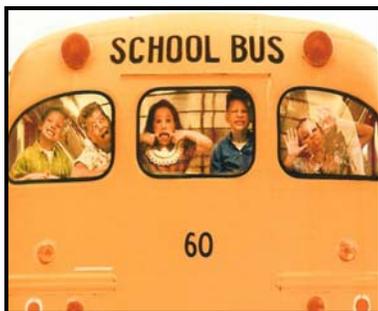

Who was Ronnie  
Thornton's favorite  
center?

Does this help?

3.

Who are the five kids  
on the bus?

HERE

ARE

SOME

CLUES

IN ORDER

4.

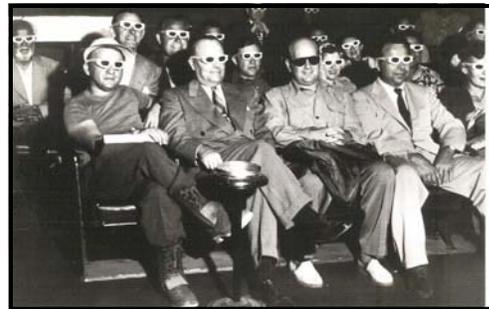

Who had an orange blazer made when he ran for office?

5.

Who hasn't changed much?

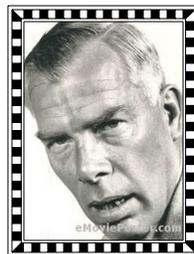

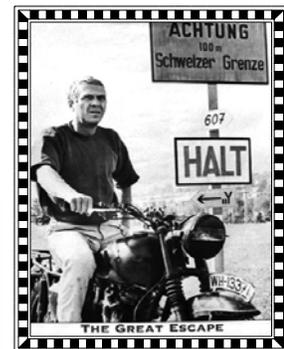

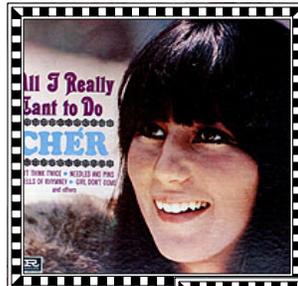

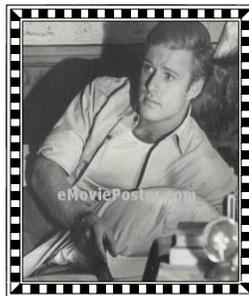

You only have to identify five to get Credit for this question.

6.

What year did BeBe Balmer get her VW van?

Yes, all is well in Pennsylvania. When I was a little girl, we used to travel "for days" to get to Pennsylvania to visit my grandparents. Then when I had my own family, one daughter and one son, we traveled from Pennsylvania "for days" to get to Arkansas to visit their grandparents. Irony? Well, yes, I think so. I am single, living in West Chester, Pennsylvania in a small borough recently cited as one of the top ten small towns in the USA in which to live. I have a modest home about one block from a recently renovated century old library and three blocks from a quaint little village of shops, restaurants, art galleries, and civic buildings. I work as a Certified Speech Pathologist about 13 miles from my home in a center for children ages 6 to 21 years with special needs. Currently, my caseload consists of primarily autistic children which is both challenging and rewarding for me. My own children are grown and living nearby. For fun I really enjoy gardening, travel, and reading. Still I manage to get out and hike some and especially enjoy Pilates and Yoga. I still find laughter to be my favorite form of exercise and have a chuckle here or there recalling good times at Malvern High. I will miss seeing all of you classmates, reminiscing, and sharing developments and experiences over the past 40 years. I hold you all in fond regard in my heart and memory. To me you remain that eager class of 1966 headed for adventure, some heartbreak, and lots of life learning. Happy 40th, ya'll. Love, BE

# Cleo Baker

Due to lack of interest in school (B mostly C student), I departed Malvern in October 1966 for boot camp in San Diego. After a number of schools I arrived at my first submarine, USS John C. Calhoun SSBN630, [www.ssbn630.org](http://www.ssbn630.org) and started my Submarine career in the spring of '67. Retired in '94 with the rank of Master Chief Petty Officer (E-9). Held various positions of authority - one being the Chief of the Boat (COB), or Command Master Chief, on the submarine USS Sunfish SSN 649, [www.ssn649.net](http://www.ssn649.net). I supervised and was responsible for the crew reporting only to the Commanding Officer.

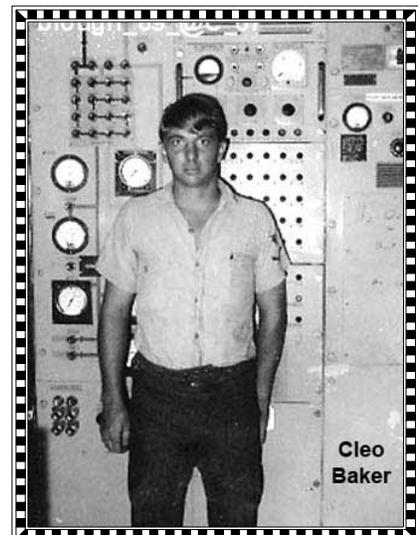

Lived in South Carolina, New Hampshire and Virginia most of my career, with a two year stay in the San Francisco Bay area. While there I was part of the movie "Gimme Shelter", <http://www.imdb.com/title/tt0065780/> a documentary with music about the Rolling Stones free concert at Altamont Speedway on December 6, 1969. I am the one on the hill waving my arms.

Moved to Ohio to be closer to the grand kids and accepted a position with Emerson Climate Technologies, Copeland LLC, in the engineering department for development of scroll compressors.

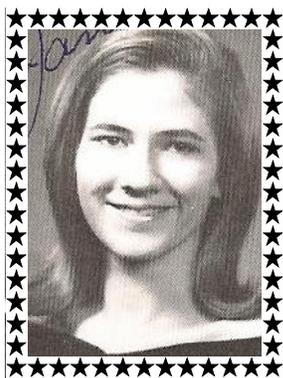

My sister and her husband still live in Malvern and we plan to move back in about 3 to 4 years after a second retirement.

In a small nut shell, that is 40 years.

For the reunion, due to previously scheduled engagements and time constraints, we will not be able to make this one.

**I married Doug Huffman, also from Malvern, in 1967. We have 3 children, Brian, Jeremy, and Mindy and 4 grandchildren with one on the way. After we both graduated from Henderson State College (Doug as a math major & me as a chemistry major), we attended graduate school at Clemson University in South Carolina. Doug received a PhD in mathematical statistics and I received my Masters in Plant Physiology. We then lived in Memphis where Doug taught at the University of Memphis and then in Kentucky where Doug taught at Murray State University. I remained a housewife during this time, staying home with our children.**

**In 1983, we moved to Jonesboro where Doug taught at Arkansas State University and I began teaching in the Chemistry Department. After 9 years, I moved into a job at ASU as Director of the Northeast Arkansas Rural Institute for Math & Science Education where I am today. I conduct math and science professional development for teachers and pre-teachers, write and direct grants (over \$3 million so far), arrange math & science conferences, and anything else that helps improve the teaching and learning of math and science in this part of the state.**

**After 27 year of marriage, Doug and I divorced, and I am now married to Dr. Norman Trautwein. He recently retired from the Chemistry Department at ASU after 37 years.**

# Mary Beth Bowman

**Single - no children**

**Currently employed as Director of Community Development with the City of North Little Rock.**

**For the past 40 years I have lived in Malvern, New York City and Little Rock. Out of college I started working in Mental Health and then switched to working as a public servant in the area of affordable housing. My jobs (paid and unpaid) have taken me from working as a migrant laborer to regulating manufactured housing to my current job with the with the City of North Little Rock. My pastime includes playing golf, traveling, reading and anything that pushes me to grow. I am involved in several nonprofit organizations that serve the homeless or those in need of additional services. Life has been very good to me.**

After graduation, I went to Henderson State University where I received a BSBA in 1972. In 1974 I went to work for Reynolds Cable in Jones Mills. I got married in 1979 to Wanda Faye Gray. In 1981 we had our first child a girl, Heather Lee Branum. In 1984 we had a son, Brian Miles Branum. In 1993, our plant was shut down and I went back to college at Henderson State University and graduated in 1995 with a BSE in elementary education. In 1995 I was transferred to Reynolds Rolling Mill in Jones Mill. I now have 32 year with Reynolds Alcoa. I am a roll grinder at the plant.

My wife is the bookkeeper at Malvern Junior high school. My daughter, Heather, is a coach at Malvern Jr. & Sr. High. She coaches volleyball and basketball. She received her BSE in physical education with a minor in health at Henderson State University in December 2003. She is currently working on her Masters in Sports Administration. She will complete her masters in December 2006. My son, Brian, attends the University of Arkansas at Fayetteville where he is pursuing a degree in civil engineering.

My family attends First Assembly of God in Malvern, AR. I still enjoy fishing, hunting, and golf. I especially enjoy bow hunting and hunting with my kids. We live south of Malvern off Highway 67 in Oak Dale.

501-337-7462 HM

I went to Henderson State for the required pre-dental hygiene hours, was accepted at UAMS in Little Rock, graduated early, passed the Boards, and got my license in January 1970. I went to work here in Malvern for Dr. Kirk Cone, and when he had a heart attack, and had to close the office, I went to work in Arkadelphia for two Dr.'s in partnership, Ron Spann, and Joel Jones.

It was a very busy practice, but I made time to raise ,ride and show Quarter horses, along with picking up backpacking in the west, Colorado and New Mexico wilderness areas, and got to know almost every part of those states over about a twenty year span of time.

Both doctors retired about 4 years ago, so I now am working with a young dentist in Hot Springs Village, and part time in Dave Cowlings office here in Malvern.

I am still looking for the right "Mister Right", however I am very happy with my life and all my great friends, and loyal patients I have made over the years. Looking forward to seeing everyone in October.

Hi, Jane. Don't know if you remember me or not ... was just with the class our Senior Year ... ~1/12 of the get acquainted time for most of you. What sort of picture do you prefer ... Suit & Tie or jeans on the motorcycle?

I got the RSVP letter too, but have been holding it until closer in time ... I am "on call" the average of every other night & every other weekend ... worked out an extended schedule & the 13th & 14th is my weekend on call. Still too far out to get commitment from my counterpart for swapping at work. If a directory of names & addresses (snail & email) gets compiled, I would definitely be interested in it.

About the only person I have had contact with in the past 10-20 yr., Besides June's (Ne: Baker, now Jefferson) sister, Sarita, who lived near us for a while, was Rhett Wenzinger, whom I ran with in Malvern. I don't guess that he was in Malvern too many years longer than I. I think Rhett was & probably still is in the Seattle area ... happened to do an online search several years back when I was going out to visit our son, who was stationed in the Puget Sound area, at the time, and visited with Rhett a couple of times ... same irreverent soul ... looked just like he did in H.S. ... same size, same chuckle, same boisterous, irreverent attitude, but a few more character lines.

Later, David

I married in 1968, and went into the army from 1968-1970 (Germany). I worked at local jobs until 1977. Then I went into the used car business. Now I also buy and sell real estate, remodel old homes and am an auctioneer. I divorced in 1985 and stayed single until 1989.

I lost my daughter, Cherie Ann Collins, when she was murdered by her husband in 1988.

I remarried in 1989 to Mary Ann (Altom) Collins, who had two children. A daughter named Cathy and a son named Lance who received me as a stepfather very well. We now have two special grandchildren, a granddaughter, Kaiya Rain Davis, born 9/11/01 and a grandson, Bradley Drake Dickson, born 3/2/99.

God has blessed me and my family with good health and a very good living. We all attend Malvern First Assembly of God Church. I live in Malvern and do not plan to move at any time. I lived with my grandmother (who I knew as MOM) who brought me up in a Christian home and made sure that I went to school which I am very proud of.

I have had family members pass away since I was in school. They are my daughter, my Dad, and my two brothers. All in all I have had a very good life. Thanks to God for good health and wonderful family.

Respectfully,  
Larry Collins

After working in the Hot Spring County Treasurers Office as a deputy treasurer for almost eight years, I campaigned for political office in 1988 and became Treasurer of Hot Spring County in January 1989. This January I will begin serving my 19<sup>th</sup> year as treasurer.

I married while I was a senior in high school and divorced in 1994. I married William Earls in June 1995. William works for the state as a HVAC tech. We enjoy riding our Goldwing trike, traveling, and spending time on Lake Ouachita where we have a houseboat at Crystal Springs.

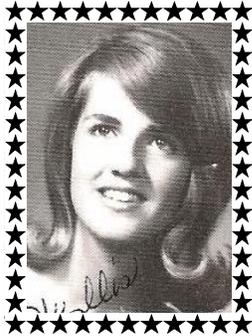

I have two sons, Carl and Stephen Wheatley. Carl married Jeanne Stanley and they have two daughters, Lyndi, 15, and Morgan, 10. Lyndi is a cheerleader for the mighty Malvern Leopards and Morgan loves participating in the sports activities. Carl is a supervisor for Malvern Water Works and Jeanne works at Malvern Elementary School.

My youngest son, Stephen, married Jenny Edwards from Poyen and they have three children. Allison is 11 years old, Patrick is 8 years old, and Jonathan is 6 years old. They love sports and play basketball, softball and baseball for the Poyen Indians. Stephen works for Entergy and Jenny is a substitute teacher in the Poyen Schools.

The pictures are of William and I in Seattle and Alaska this year and also some of the family.

# Phyllis Dedman

Phyllis Dedman Cordon  
16201 Patriot Drive  
Little Rock, AR 72212  
Phyllis@pulaskiacademy.org  
501-225-7125 HM

Keith and I have been married for thirty-three years and have two children. My teaching career started in the public schools in Little Rock in 1970, but I moved to Pulaski Academy in 1977 and have taught there since then. A couple of years ago, I became a student again when I attended summer school at Oxford University. Keith's degree in criminal justice evolved into the wholesale liquor and wine business -- we are not sure how that happened, but we have certainly enjoyed trips to the wine country!

>

Our daughter Krista graduated from the University of Arkansas for Medical Sciences. She is a doctor at Tampa General Hospital in Florida. She married Ron Gillis this past May.

>

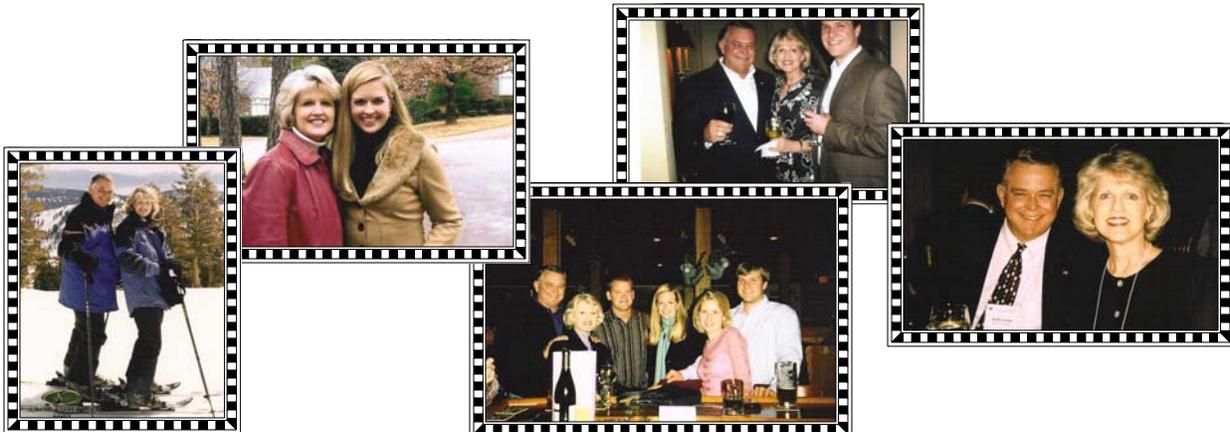

Our son Justin graduated from Notre Dame, married his high school sweetheart, and lives in Connecticut where he works in a private equity firm.

>

We, thankfully, lead somewhat boring lives with yearly trips to snow ski and vacations to visit our children. We share our "empty" nest with three dogs.

>

I can't wait to see all of our classmates!

# Jane Dial

Jane Dial Whaley  
3980 Randall Mill Road  
Atlanta, Georgia 30327  
janewhaley@earthlink.net  
404-266-2655 HM  
404-272-0080 M

My life has been a series of blessings. To cut to the chase, after one and a half years at A&M, I transferred to the University of Arkansas where I received a BSE in English. I never taught, however, but instead moved to Atlanta and worked with Neiman Marcus for two years. I spent the next eight years with Yves Saint Laurent in Atlanta. Somewhere in there, 1976, I married Bill Whaley, and this is where all of the fun started. We have traveled all over the world and continue to do so. We both like adventure, so our trips are never boring.

I've included a few photos from Burma in the jade market, The 2004 Inauguration, (yes, I am a Republican!) making baskets with a wonderful family in Thailand, sitting on the Emperor's throne in Viet Nam, seeing the magnificent temples and visiting with a young Buddhist monk in Burma. I couldn't find the photo of us on an elephant in India or us on a camel in Egypt.

Bill is an Oncologist in Atlanta. I own an antique store in Blue Ridge where we have a home. It started out as a weekend home, but now we spend half of the week there.

**Jane Dial**

I'm also developing mountain land in Northwest Georgia, so if you're ready to retire, call me!

I have spent many years volunteering. My most gratifying two projects were helping to build a small complex for homeless women with children, and spending ten years lecturing on positive parenting and drug abuse in the Atlanta schools. I am now doing most of my volunteer work in Blue Ridge, with the Arts Association and the theater. Bill and I also have a foundation that assists students in need with tuition.

Bill carried the torch for the Olympic Games in 1996. He was first assistant (volunteer) to the COO of the games, A.D. Frazier. Our children were at the games the night of the bomb. After all is said and done, it was an exhilarating time that we all cherish. Johnny Spheeris came to visit us to see the track and field. He was in Heaven.

My family is growing. Bill has three daughters, we have one. We raised all four, and now we have six grandchildren. They are scattered from New York, to Philadelphia to Atlanta. Our youngest daughter, Ali, has just gotten her first job and apartment. YEA!!!!!!!

I don't get back to Malvern too often, but I have very fond memories of our school years. In fact, I dream of high school, not college. I am grateful for the opportunity to come home and see all of you. Let's keep in touch. Love, Jane Dial Whaley

This is sans one grandson who was not born at the time we took this photo.

For several years I juggled three small children, a career in real estate and volunteering in school classrooms. Then, I tried my hand at politics. Although not a debater in high school, I held my own in the political arena. I was called a political neophyte by one newspaper. I ran for a county seat in the second largest county in Illinois, but a Democrat doesn't fair well in a Republican community. I was a charter member of Will County (IL) Women's Council of Realtors and Bolingbrook (IL) Business and Professional Women. I moved back to Arkansas in 1990 where I became involved in the literacy council. I became certified as a literacy trainer. Since then I have trained numerous tutors and tutored many students in basic literacy as well as English as a Second Language. We also have the biggest and best haunted house each year in Arkansas, which is the council's largest fund raiser. I have lived with my companion, Richard Lindstrom, for 12 years. I have a son, Jaeson Riggan, 39; a daughter, Heather Clardy, 34; and a son, Heath McNees, 32. I have six grandchildren – four girls and two boys ranging in age from 4 to 18.

Since I moved from Malvern (the day after we graduated) I've lived in Defiance, OH; St. Louis, MO; Eastman, Macon, and Hinesville, GA; and Clinton, S.C. I'm back in Eastman, GA living with my mother and working as an LPN and Pharmacy Technician at Fred's Pharmacy.

I have two sons, Reid who is 25, single, and entering the ministry, and Herb who is 23, married, and entering pharmacy school.

My newest love is mission work. I've been to Costa Rica, Grenada, and Honduras, and New Orleans in the last three years. I'm the Mission Chairperson, in the choir, in charge of the prayer pager ministry, and a Lay Speaker at the Eastman United Methodist Church.

**I haven't done anything spectacular in the last 40 years....but I have had a good life. I love traveling and have done quite a bit of it.**

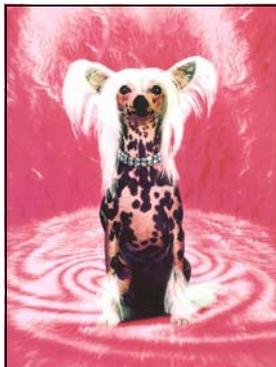

**I started loving bookkeeping in Miss Speakman's class and have continued on with that as my profession. I retired in June of 2005; then went back to work part time in April 2006....I needed a routine and structure to my days and now that I am working on my "own" terms it is just what I need,**

**I never was able to have children so have missed out on that part of life, but am OK with that too. I have a wonderful nephew and have two adorable little boys as my "great-nephews".**

**I was married the last time for 18 years and then in 2002 my husband decided that he wanted to again "date" his high-school sweetheart. Our marriage ended at that time to say the least.**

**To sum up everything: My life has been and still is good. I have NO spouse, NO children and NO grandchildren. What else can I say?**

**Karen Gray**

**Yes, the years have been good to me,**

**Now let's have some fun**

**My forty year journey thus far – Anna Griswold**

None of us knew precisely what would happen the day following high school graduation. Some may have planned precisely and stuck fairly close to their plans. Others may have planned not at all and just waited to see what would happen. And yet others, may have planned a general direction and then remained open to what might alter that plan or change that general direction altogether – a sort of ‘go with the flow’ approach. I think this is the group I fell into. Looking back, I have no regrets.

After high school, I ended up in Memphis for college – enrolling in a small private catholic women’s college (Siena College). I majored first in elementary education but changed to sociology. Why this college and why this academic major? As with many of you, the answers are more easily shared in conversation – but the things that influenced my decisions along the way are actually fairly mundane – I pretty much ‘went with the flow’.

I worked part-time while at college in the admissions office and that led me to a job at Memphis State University (now the University of Memphis) in the financial aid office. A friend from Siena encouraged me to stay in Memphis and that led me to seek this job. Actually, the path from Siena to Memphis State is another story for conversation. Anyway, this work seemed to really suit me for many reasons. No one sets out to be a financial aid counselor as a career, but if one finds a way into this field, it can be very interesting and sufficiently so to make it one’s life work. It is really not as boring as it might sound. While at MSU, I completed my master’s degree there in student personnel work in higher education.

*Anna Griswold*

Here is the chronology of what happened since high school:

- **1966-70:** Siena College, BA in Sociology
- **1970-75:** Memphis State
- **1973:** M. Ed degree in higher education from Memphis State
- **1972:** I met Don while at MSU and we have been together since. He was in law school there.
- **1975:** Left Memphis State but continued in financial aid work moving to Alexandria, VA and Northern Virginia Community College
- **1980:** Took a promotional move to Washington State University, in Pullman, WA, and lived for 11 years in the beautiful Northwest – a part of the country I thought I would never see.
- **1991:** Took another promotional opportunity and moved to Penn State University in State College, PA where I am today as the Assistant Vice President for Undergraduate Education and Executive Director for Student Aid. I manage a student aid program of about \$650M and lead a staff of 60. Don and I reside on 20 acres outside of State College, PA (which is in the center of the state).

Like you, every move or change on a career or family path is about building a life and discovering likes and dislikes along the way....opportunities and discoveries.... about how one can make a difference with one's life. Each step of my journey has a story or two which may or may not be interesting. And that is what reunions are about – hearing about each other's journey that has led us to where we are today. Maybe here, we can fill in the blanks of all our stories that comprise the journey. I'm looking forward to our 40<sup>th</sup> reunion. It will be my first – at long last. I always regretted that time, circumstance or distance precluded my attendance at earlier reunions.

Life has been good to us since we graduated. We do feel blessed. It blew my mind for you to say write a short paragraph on what we have been doing in the last forty years. It can't really have been that long!! Weren't we all just walking down the halls at high school yesterday? I have such fond memories of being there with all of you.

This is our bit of news: Mike and I have been married since 1976. We got married the summer after the graduated from West Point. He was an army officer for 5 years and we had the great fun of living in Alaska for 2 years. We have two terrific kids, Danica and Hunter. Hunter has turned us into doting grandparents with the births of his daughter, Aspen and son, Isaiah. Luckily we get to see them frequently since Hunter and his family and Danica also all live in Grand Junction, Colorado. I am principal of an elementary school in Grand Junction. Mike is a civil engineer for Kinder Morgan, a natural gas pipeline company. We have lived in Colorado since 1998 and have taken on a new hobby, or maybe it has taken us over. Horses. We have 7 horses that keep Mike busy with training and tending and keep me busy with watching him. We recently had a little colt born. Skiing and enjoying the Colorado scenery have been have been pretty special too.

Mike and I send our love.

Mike, I told you we should have sent in some pictures!

During the last forty years, I graduated from UAMS School of Pharmacy, and have enjoyed a thirty-two year career in pharmacy. I now own three pharmacies, two in the Fort Smith area and one in Greenwood. Frances (Richardson) and I have been married for thirty-eight years. Our family has grown to include three sons, two daughter-in-laws, and six grandchildren. The ages of our sons are 36 years, 32 years, and 16 years old. Our family is very active in church activities, as well as sports events.

Oh, no! I forgot to send my photos.

Hi Ya'll. I'm Janet Hightower Otts. Remember , the tall, skinny redhead - still tall, not skinny and still have red hair but I do have "blonde" hair coming in quite heavily , yes, I said blonde!!

I spent the first 20 years after my days at MHS getting married and having and raising my babies. Bill and I will be married 39 years this November. We have a son Jeffery, a daughter Julie and son-in-law, Kyle Orr. Now for the best part, we have three of the most precious grandchildren; Garrett (14) who lives with us, Laekyn (7) and Kylie (3-1/2). I love spending time with them and have almost gotten them completely spoiled. God has really blessed me with a wonderful family.

In 1986 I went to work at Willamette Industries as the receptionist and accounts payable clerk. In 2002 Weyerhaeuser Company took over but in June of this year sold to Flakeboard America. I retired from Weyerhaeuser when we were sold but went to work the next day for Flakeboard. I guess I must have had one of those "Senior Moments" to do something like that.

Good Grief!! I think I have almost written my obituary!

**601-856-0604 HM**

**So you want a little update, I will try, but 40 years? I really can't conceive the fact that much time has passed.**

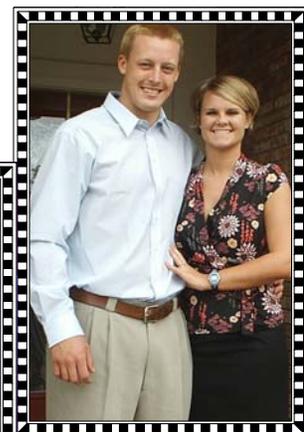

**Presently, I am living in Madison, MS a suburb of Jackson, with my wife of 30 years, the former Barbara Major. She grew up in Jackson, but was born in Boston ( she can still drop into a good Bostonian accent as well as doing here standard "dripping Magnolia." We have one child, our son Trevor. He graduated from Mississippi State University in 2004, and he now works for a commercial construction company as their project bid estimator. He married last July to a Jackson girl, Pam Wilhite (who also originated from out of state, Nebraska). They are living in another suburb of Jackson, Ridgeland and are now building their first House together.**

**I ended up graduating from Ouachita Baptist in 1970 and then attended graduate school at to what was then Northeast Louisiana University in Monroe. I majored in Physics. After school there were no jobs in my field so I spent about 3 years working for an engineering firm in Little Rock who transferred me to Missouri. I then went to work for a commercial insurance company in fire and safety engineering and continued in that field for some 10 years, changing companies and moving first to Jackson for 3 years where I met Barbara, and then to Raleigh, NC for 7 of those years where Trevor was born. I decided on a career change to Computers when the first PCs hit the market, and moved back to Jackson to be closer to family. I worked for a year with a local Computer company and then started a consulting business.**

*Jerry Horton*

Eventually a job sent me to Santa Rosa, California for “3 weeks” which turned into 3 years. We decide once again to move back “home” so our son could be around family as he grew up. I went to work for the State of Mississippi as the MIS (Management of Information Services) Director for the Department of Mental Health agency. After 4 years there, the Casinos were starting to open here in the state, so I went to work for Harrah’s to build and run the MIS operation for the casino in Vicksburg. This required a 2 hour commute, so I eventually left and went with the Department of Corrections to move them from dumb terminals to the PC world. I have been there now for 10 years, and have built a State wide high speed network environment that includes 70 cities, 2000 PCs, and 60 servers.

As a sideline, I have a company <http://www.arcdigi.com> set up with my brother-in-law to refurbish the original King Air propjet aircraft (LJ1), which we own. This was the first plane built for private use that was pressurized and seated passengers in the same comfort the airlines, just a whole lot smaller. It revolutionized the entire business aircraft industry. After it came the small jets and other prop jet aircraft. We have set up a charitable foundation, <http://www.kingairfoundation.org/> to allow contributions of money, parts and labor to accomplish this. Once completed the aircraft will make an around the world trip with celebrity pilots (some of those included so far are: Morgan Freeman and Harrison Ford) to raise additional funds for charities such as the Christopher Reeve Paralysis and Saint Jude. Eventually it will be donated to a prestigious Aircraft museum.

# Diane Hudgens

**Diane Hudgens Lowy**

After graduation, I attended the University of Arkansas at Fayetteville for 3 years deciding to trade my BS for an MRS degree. Not one of my better decisions, but it seemed like a good idea at the time. In 1970 we moved from Fayetteville to Osceola, Arkansas, which is where my oldest daughter, Adrienne (now 36) was born. In 1972, we moved to Dallas, Texas, which has been my home ever since.

In Dallas, I began a career as a legal assistant and paralegal. After several years as a swinging single, I met my husband, Marty Lowy, and we married in 1983. We have two children, Mary (21) and Jonathan (19). Mary, who was an honor graduate, is now a senior at the University of Texas. Jon, who was a National Merit scholar who barely graduated high school, is now in food service (as in waiter) at a local restaurant, intending to go to college "someday." Adrienne married last year and now lives in Tucson, Arizona. All three of my children have given me a terrific education in how *not* to parent, reinforcing the idea that babies should come with a manual. I wouldn't trade the adventure for perfect children (really), but if yours *are* perfect, please don't talk to me.

Marty is a lawyer and in-house counsel with Comerica Bank. He is running for a Dallas County Judicial Bench in November. After taking a sabbatical while our children were young, I went back to work part-time as the Executive Assistant to a commercial real estate broker. My passion was PTA while the kids were in school, and as a volunteer in a multitude of other non-profit organizations. If only I could have kept some of the money I have raised. . .!

Marty and I are enjoying our (mostly) empty nest and are hopeful that he will win his election. I am planning to take a new career direction myself, so we are both looking forward to new challenges. Let's hope we will remember what they are when that time comes.

# Glendora Hughes

**501-624-1411 W**

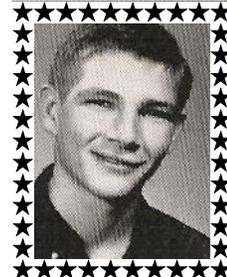

I've spent over 30 years as an insurance agent and have worked for the same agency the past 16 years. I have been divorced from my second husband for 8 years. I have 3 children by my first husband - Stephanie is 37 and is married to Dale Horn II and has a little boy, Dale Horn III. Dale has a used auto dealership in Malvern and Stephanie does office work part time at a preschool. They live here in Hot Springs not far from me. Ashley is 36 and is married to Eddie Lamb and they have 3 children, twin girls, Carson and Payton and a son, Sawyer. They live in Hot Springs Village - Eddie is a basketball coach and Ashley teaches. My son, Kyle, lives in Fayetteville, is 31 and isn't married yet. He's also in insurance sales. I stayed around the Malvern area until I was 41 - remarried and moved to Glenwood in 1990. I moved to Hot Springs in 1998 and am still in Hot Springs. As I said, I've been in insurance forever and have been very involved the past 7 years in a state insurance trade association - Professional Insurance Agents (PIA) serving on the Board of Directors and just finished serving as the state President for 18 months. I have obtained a designation of Certified Insurance Counselor and have maintained that designation for over 15 years. I spend as much time as possible with my girls and my grandchildren - they are so precious to me and I'm my happiest when I'm doing something fun with them. I have been swing dancing for about 3 years and usually manage to dance at least one night a week. It is great fun and good exercise and I love it. I just recently sold my lake condo and built a small house in the country. I'm still getting settled in there and am loving it. I still keep in touch with a couple of high school friends, but have made many close friends over the years and spend quite a lot of time with them. Email has certainly helped make it easier to keep in touch with friends who don't live close and even with the ones who do. I've been able to travel some and hope to be able to travel some more - I've been to Switzerland, and Germany. I've traveled to most of the US, including Hawaii. I missed our 30th reunion - was not aware that we were having one until it had already happened - guess I just didn't get the invitation. So, I'm looking forward to this 40th reunion and getting to see everyone. Hope this gives you a little info on my life. I'll see you in October.

# Annette James

Jimmy and Annette Gray  
216 Russell Lane  
Malvern, AR 72104  
nett@hsnp.com

I will begin with Jimmy:

I attended Southern State College for one semester and on September 22, 1967, Annette James and I were married. We have been blessed with three wonderful children, one granddaughter and another granddaughter due the end of August. Shane, our oldest, lives in Charlotte, NC and is an executive for Bank of America. Brady, our second son, lives in Malvern with his wife, Ronda, and daughter, Kimber. They are expecting their second daughter August 21. Brady is an Automotive Tech. for Allen Tillery Chevrolet in Hot Springs and Ronda works for Kindy & Elliott CPA Firm in Malvern. Our youngest is Stacie. She lives in Columbus, OH and is an assistant dietician, and is still pursuing her Masters in this field. I am retired from the U.S. Army and am a Vietnam Vet. After retiring, I started my own part-time business working small construction jobs.

Now for Annette:

In addition to the above, I worked for fifteen years in the banking industry. I worked as a Teller, Customer Service Associate and a Branch Manager. First and foremost, I am a Mother, Wife and "Mamaw". After leaving banking in 1996, I achieved a long time dream of opening a Daycare. It is a small in-home daycare and I absolutely love it. Jimmy and I will be married 39 years in September and we have all that we ever hoped for. We have God, our Family and our Love for One Another.

Looking forward to seeing everyone at the reunion.

800-253-7627 ext.224 W

Good Morning,  
Since I can't be there, I will send you a few pictures and a brief bio.  
First set of pictures are of Brendan Kate Morgan with her dad's hands,  
my son Greg Morgan who works with Tyson in Marketing. They live near Fayetteville.  
She is my first grand daughter.

I have two children, Greg Morgan and Lisa Graves. Greg has one daughter and Lisa has one daughter and 2 sons. So I have 4 grandchildren total. Lisa lives in Hot Springs with her husband Tim Graves and their 3 children.

I work for Aldas Sentimental Living Company in Little Rock. I am in sales with key accounts like Disney, Chateau on the Lake in Branson, Mo., etc. I travel a lot with Alda when she does TV appearances, speeches and book signings. I also do PR for her and press releases.

My husband, Larry Morgan, is retired from IBM after 30 years. We have lived in Little Rock for 38 years.

I hope to retire also in the near future so I can enjoy more time with my family and attend Class Reunions.

After leaving Malvern with the Class of '66, I attended Henderson State University. I graduated in 1970 and was commissioned through ROTC into the U.S. Army Adjutant General Corps. Before entering active duty, I married Barbara Hancock of Delight. I served two years on active duty during the Vietnam War. I was the Notification and Family Assistance Officer for Arkansas, meaning I delivered the news of the death of soldiers to their next of kin, then coordinated the funeral and subsequent government assistance to the survivors. I decided a military career was not for me. Our son, Paul, was born in 1971.

Using the G.I. bill, I returned to Henderson State to get a Master's degree in Counseling in 1972, working my way through as a bricklayer's helper. My spouse, Barbara, convinced me to approach HSU President Martin Garrison about a job. He hired me to work in Student Affairs. I spent four great years (1973-77) working with students and helping seniors find their first jobs. Our daughter, Erin, was born in 1975. I left Henderson to join the management training program of Southwestern Bell Telephone in 1977 with my first assignment in Jonesboro.

*Wayne Mayes*

**I had a 23-year career with SBC, working in Jonesboro, Arkadelphia, Fayetteville, and El Dorado, Arkansas, in External Affairs, before completing my career in Philadelphia, PA as Regional Vice-President of External Affairs. In October, 2000, I accepted a voluntary early retirement offer, and Barbara and I moved to Fayetteville, AR to be near our two married children and five grandchildren, and to live in the area we came to love back in the 70's.**

**I work part-time for the Arkansas Democrat-Gazette as External Affairs Director, which allows us to travel. In the past few years we have visited Australia, New Zealand, England, Scotland, Canada, and our favorite states – Maine, Colorado, Wyoming, and California. We have enjoyed cruises in the Caribbean and Alaska. The part-time work also allows me to devote a lot of time to Arkansas Right to Life (State President) and the Arkansas Senior Olympics, where I serve on the State Board and participate in track and field and three-on-three basketball.**

**We attend First Baptist Church in Springdale and enjoy a small group called “Been There, Done That”. Barbara tutors several Chinese ladies and a man in English. I am continuing my 30 year membership in Rotary International. We look forward to the reunion with our old friends in Malvern.**

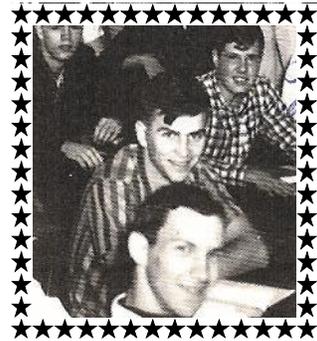

Wayne and Barbara traveling near Whistler, British Columbia

**Children:** Josie 6 weeks

**Thomas Wolfe**  
mechanical engineer (just finished grad school with a masters in business)

I have been the librarian at Dollarway High School in Pine Bluff for the last 21 years. I started my career at North LittleRock High School with 10 years off in between to have my 4 kids. Our son has just finished his masters in Business Administration at the University of Arkansas at Fayetteville and is now looking for employment, so it looks as if our nest will be permanently empty in a short while as he is in the process of job interviews now. However, with our 3 daughters living less than an hour from us, we have a lot of kids and grandkids coming and going.

*Anna Beth Phillips Wolfe*

As most of you know, I worked for Mrs. Overton in the Malvern High School library and she was always a role model for me. So it comes as no surprise that my career as a high school librarian has somewhat mirrored hers. Like her, I was also the high school student council sponsor for many years which meant I did homecoming every year and sometimes I got roped into prom. Now I've turned those chores over to younger teachers. However, I am technical coordinator for our high school which means I get to do a lot of fun (and not so fun things) with computers and all the digital gadgets that seem to pop up everywhere.

Just like the rest of the baby boomers, Carroll and I are looking toward retirement. My husband has just fulfilled a lifelong dream of buying a Harley Davidson motorcycle and I've been persuaded to make a few short trips with him. Can you see me as a motorcycle mama? The hilarious thing is that our kids actually worry about us when we ride it and always ask us to call them when we get home safely. Now that's a switch!! I can foresee that our future is going to be an active one--filled with children, grandchildren, and travel.

.....let's see, what have I been doing for the last 40 years?

I'll skip the first 10 years after high school when I was still young and stupid, all that's best left unsaid anyway! For the past 29 years I've been high school guidance counselor here at Lakeside High School in Hot Springs. Before that I taught English and Spanish in several places throughout Arkansas. That was after getting my Master's degree at Henderson and spending a little time in the Army. I got married later than most of our class I suppose.(in 1982) My wife is 10 years younger than I and works as a physical therapist. We have 2 boys, Seth (20), a junior theology major at Ouachita Baptist Univ. and Barret (16), a junior at Lakeside where I work. My time is mostly taken up with school and church activities. I was recently ordained a deacon at First Baptist Church here in Hot Springs. About 12 years ago I gave up running and took up the sport of competitive race walking. I've been very successful at it and have represented Arkansas in the National Senior Olympics in 1998 and 2002, winning a bronze and silver medal. I also do the Little Rock Marathon every year in March. I was looking at some old photos recently and found one of a birthday party at Sally Kay's house when we were about 5 yrs. old. Time really flies! I'm looking forward to this reunion. See you this fall.

Greetings to the MHS Class of 1966. . . Life after high school has taken me literally around the world, first as a nuclear engineer in the Navy, as a maintenance engineer at Chemical Plants in three states, and finally I have landed as a reliability engineer for Potlatch Forest Products Corporation at it paper board mill at Cypress Bend on the Mississippi River. This site is near McGehee, Arkansas. My wife, Lynda, and I moved back to Arkansas about eight years ago to be closer to our four parents. Lynda, very soon to be Dr. Samons, is completing her degree in Organizational Leadership from Nova Southeastern University. She is working in the Magnet Cove School District. Our two children, 26 and 27, are both engineers. Leigh is a Microsoft Certified Computer Engineer and works out of Dallas, TX. Geoffrey is a Chemical Engineer and works in Alaska on the North Slope. They both love coming to Malvern to visit their grandparents.

I look forward to seeing all of you in October.

# William Simpson

William Simpson  
220 Ingram Street  
Camden, AR 71701  
wm.simpson@sbcglobal.net  
870-574-1177 HM

**William M. Simpson Life Story** - I was born outside of Bearden, Arkansas on July 24, 1947. My family moved to Shumaker (now East Camden, AR). Next we moved to Huttig, AR where my sister Virginia was born. Then we moved to Glenn Rose, AR where I went to 1<sup>st</sup> and 2<sup>nd</sup> grades. While in 2<sup>nd</sup> grade we moved to Malvern where I completed 2 to 12<sup>th</sup> grade.

In 1966 I joined the Army along with Andrew David on the buddy plan. We went through basic training together but chose different schools of training. I was trained to work on receivers and transmitters. In Jan. of 1967 I was sent to Korea to serve as radio and tele-type repairman plus other type of electronic equipment. While I was there the North Koreans came across the DMZ to cause problems. My company was put on alert because the North Koreans were coming near our company. We were put on patrol at different places around the company. They came at night so we were sent out on patrols at 30 minutes intervals. During the night the temperature dropped around zero degrees. Also it rained at times which caused it to be slippery going up and down the hills around us. During the night I fell off a cliff and was transported to the hospital. During the night other soldiers were also hurt. I stayed in the hospital for 5 weeks. I recovered and went back to work. March of 1968 I was sent home. I spent a month at home.

## *William Simpson*

The Army sent me to Turkey for my next tour. After serving a year there, I was sent to New York to be released from the Army. I spent two weeks in New York seeing the sights.

My family and I moved to Pine Bluff in 1970 where I went to work with the phone company. In August 7, 1970 I married my wife, Francis Wallace. In 1973 we had our first child, Kristie. In 1977 we had our 2<sup>nd</sup> child, Kimberly.

I quit the Phone Company in 1977 and became a truck driver for 2 years. I went to college at Arkansas College of Technology in Little Rock. After college I went to work at General Dynamic in Camden, Arkansas as a maintenance tech. Until 1993 where the Company I worked for was bought out by Hughes Missile Co. Then Hughes transferred me to Arizona until Jan. 1998. Then Hughes was bought out by Raytheon Missile Co. In July 1998 I was transferred back to Camden. In 2000 I was injured on the job and had to take a medical retirement.

Now I just take care of Grandkids.

**Spouse: Patty, married 9/14/74**

**Children: Daughter, Rachel, born 1976 with two grand boys, John (8) and Jeff (7)**

After leaving MHS I attended Henderson and received a BS in Chemistry in May 1970. The draft got me in September 1970 and I spent my time in Oklahoma and Utah in nuclear weapons helping test fire the Pershing Missile system. After the military, in 1973, I met my wife Patty in Oklahoma and went to work for BF Goodrich as a Process Engineer. Our daughter was born in 1976 and we lived in NE Oklahoma on a small ranch until the summer of 1995. During that time I spent 12 1/2 years working for Goodrich but worked for other companies after the Goodrich plant closed as an R&D Chemist, QC Manager and Production Manager. In 1995 I got the opportunity to return to Arkansas with my current company Inspec Foams (part of Degussa out of Germany). I am now the Vice President of Manufacturing and the Site Director for the Magnolia, AR site. As such, I do far more business traveling (NAFTA and Europe) than I like. In October of last year Patty & I traveled to Darmstadt, Germany (some business involved) and we really enjoyed ourselves. Our daughter lives in North Carolina just a few miles from the Great Smokey Mountain National Park. We travel there quite often and are considering moving there after retirement. We both love the mountains in Colorado, Wyoming and Montana and hope to also spend a lot of time out West once retirement comes. I should be slowing down and getting ready for that time but business requirements are picking up with plant and product expansions planned. Currently, I am working more than I ever have in my career, but regardless of the company situation I will retire in 3 to 5 years.

**Spouse:** Larry Witherspoon  
**Daughter:** Abbie Lee Heller  
**Grandchildren:** Hunter Joseph Hall – 8 years old  
Aiden William Heller – 2 years old

Larry, Abbie and I have been living in Houston, TX for the last 30 years. I am a CPA and have worked for the last 16 years for DHL Express currently as a Finance Director. Larry is a Sales Engineer for Champion Technologies. We spend our leisure time at our lake house in East TX. Family has been our priority. I must say grandchildren are wonderful!

Abbie kept us busy while she was growing up – softball, cheerleading, Girl Scouts... She graduated from Stephen F. Austin University and is currently Vice President of Marketing for a large credit union in Houston. Most important, she is the mother of two boys. Hunter has played Select baseball for the last three years. His team has played in two World Series tournaments in Sulphur, LA. Ronnie Inglis lucked out and attended both years. Hunter now tries to coach his brother in baseball; however, Aiden definitely has a mind of his own.

Much of our lives have revolved around baseball. Larry, Abbie and I are now starting a new business – Extra Innings. It is an indoor baseball training facility. Hunter wants it opened by January 6 so he can have the first birthday party at the new facility.

This is from the publisher's web site

C. Wayne Winkle, Ed.D., is a board-certified family psychologist with over twenty-five years experience. He earned his doctorate at East Texas State University. His current professional position is Director of Adult Outpatient Services in a community mental health center in Ft. Smith, AR. Previously, he has been Director of a college counseling center, Coordinator of a family consultation center, a solo private practitioner, and a part-time instructor in four colleges. Prior to becoming a psychologist, Winkle worked delivering newspapers, as a bricklayer's helper, a store clerk, and a church custodian.

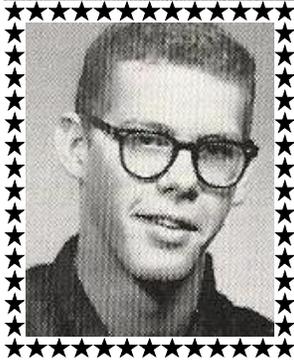

In 1980, Winkle received the AAMFT Dissertation Research Award for excellence in writing and research. He was nominated to Who's Who in American Writing in 1982. Dating from 1986, Winkle has been listed in several Who's Who publications. These include Who's Who in Medicine and Healthcare, Who's Who in the South and Southwest, Who's Who Among Emerging Leaders in America, and Who's Who Among Human Service Providers.

His writing credits include five articles published in professional journals, a chapter in a professionally-edited book, three grant proposals, and two book reviews. In addition, he has sold an article to LIVING WITH TEENAGERS. He has two novel manuscripts and a non-fiction manuscript under consideration by a publisher at this time.

Winkle and his wife, Vicki, live in Ft. Smith, AR. They are the proud grandparents of Collin and Emily.

**Wife:** Pam (from Arkadelphia) is a school teacher.

**2 Children:** Mary Carole Crane, a lawyer in Little Rock with the Laser Law Firm; Rob, a senior at Ouachita Baptist University.

I am a lawyer with Bridges, Young, Matthews & Drake PLC, which has offices in Pine Bluff and Hot Springs. I began law school at the University of Arkansas at Little Rock in August, 1988. Prior to that I was a real estate broker and insurance agent with Young Real Estate and Insurance in Malvern.

**Comments:** There are no friends like old friends. Our class is the best.

I'll see all of you in October. I bet you won't recognize me.

ALWAYS A FAVORITE

**Hail all Malvern High School  
Hats off to you.  
Ever do we find you  
Loyal tried and true.  
In our hearts forever  
Your guiding light will shine  
And through the years  
We'll think of you  
Alma Mata ine.**

Until 1945, Anchors Away was the only song we sang at school functions. These were the words:

Leaoprds, we're all for you  
Loyal and true.  
Fighting for MHS  
We'll win this game to day rah, rah, rah. Victory will come to (I have forgotten the rest.)

Many people felt that this song didn't sound like an alma mata. It was really a fight song. Christiana Harris was the band director at the time, and she wrote a new song that would be more like an alma mater. There was a lot of discussion about whether to change the song. There were many people on both sides of the issue, and so the faculty decided to ask two representatives to speak on both sides of the issue at a pep rally. After the speeches, the student body would vote on keeping the old song or adopting the new one.

Dean Wright was chosen to speak in favor of keeping the old song. He was a veteran who had returned to Malvern High to finish his high school degree and he played football. I was a cheerleader and I was chosen to speak in favor of the new song. After we made our speeches, the student body voted to accept the new ala mata that Mrs. Harris had written.

The band director was generally a male, but since most men had gone into the service, Christiana Harris was hired as the director. I remember that she contributed a lot to the music department. I have tried to locate her but haven't had any success so far.

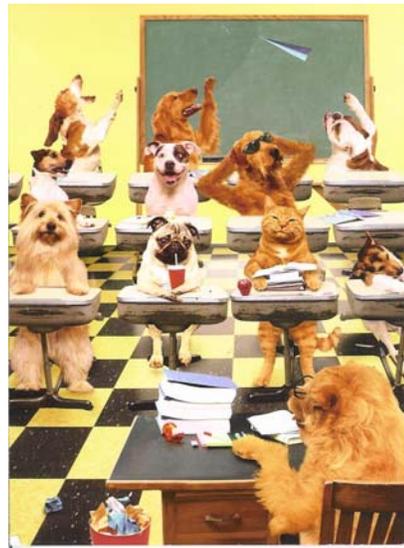

All my best to you all,

DeNora Dial
